BEHIKE: A CELEBRATION OF RARITY AND TRADITION

S.T. Dupont proudly presents the BEHIKE Collection, inspired by the exceptional legacy of Cohiba Behike cigars, considered the most exclusive Cuban cigars in the world. First launched in 2010, the Behike line consists of three distinct vitolas—BHK 52, BHK 54, and BHK 56—crafted with extraordinary precision and incorporating the extremely rare "Medio Tiempo" leaf. This unique leaf, found only at the top of select sun-grown tobacco plants, contributes to the unparalleled flavor and aromatic complexity that have made these cigars a symbol of ultimate luxury. This heritage and prestige are reflected in S.T. Dupont's BEHIKE Collection.

Each piece in the BEHIKE Collection is meticulously designed to embody the refinement and exclusivity of these legendary cigars. Drawing inspiration from the iconic Behike aesthetics, the collection features exquisite finishes and intricate details reminiscent of the lacquered boxes and holographic authenticity seals of Cohiba Behike packaging. These designs pay tribute to the craftsmanship of El Laguito, the renowned Cuban factory chosen to produce these exceptional cigars using the finest tobacco from San Juan y Martinez and San Luis in the Vuelta Abajo region.

The BEHIKE Collection is more than just a celebration of fine cigar craftsmanship; it is a tribute to the meticulous care and rarity that define Cohiba Behike. Just as the "Medio Tiempo" leaf represents the pinnacle of nature's precision and human dedication, this collection epitomizes the harmony of tradition, innovation, and luxury. With its timeless design and rich heritage, the BEHIKE Collection by S.T. Dupont offers an extraordinary journey, celebrating the art of cigars and the culture that surrounds them.

BEHIKE

STORY

Inspired by the luxurious legacy of Cohiba Behike cigars, renowned for their exclusivity and craftsmanship.

Designed to reflect Behike aesthetics, featuring exquisite finishes and intricate details.

A tribute to the artistry of Cuban cigar making, showcasing the finest traditions of the Vuelta Abajo region.

Celebrates the harmony of tradition, innovation and luxury, embodying the elegance of cigars.

OBJECTIVE

S.T. Dupont's BEHIKE Collection pays tribute to the exclusivity and sophistication of Cohiba Behike cigars by transforming its rich heritage into outstanding design. It displays the creativity and expertise of Cuban cigar making with its excellent finishes and delicate details.
