

ADORINI HUMIDOR BASIC TRIEST L

Description

The modern and functional adorini humidor from the Basic series in size L impresses with its matte finish and beautiful grain. With space for approximately 150 cigars or even smaller cigar boxes, it offers an ideal solution for the safe storage of your cigars. It includes an analog hygrometer and a passive sponge humidifier. The hygrometer measures humidity using a metal coil and, together with the humidifier, is magnetically and flexibly attached to the humidor lid. The humidor is also equipped with a lock to protect against unauthorized access. A vertical divider allows for further compartmentalization of the interior. An additional removable tiered rack organizes the humidor in an aesthetic and functional way.
